Product Range : Submersible Pumps, Monoblock Pumps, Openwell Pumps, Self Priming Pumps

## Sprinkler Piping Solution

Product Range : 63mm to 110mm

## Submersible Cable Solution

Product Range : 2.50mm to 6mm

## Service Wire Solution

Product Range : 2.50mm to 12mm

# From Management Desk

In the year 2019, we started the pvc pipes manufacturing in the state of chhattisgarh and ever since the company has grown steadily to be an integrated piping solution provider in india. Today, we are proud to say that we have successfully diversified our manufacturing capabilities into various market segments to cater our customer's needs.

Shelter has a vision to be a leader in the plastics processing industry and provide efficient piping solutions for water management.

Shelter devotes all its energies to produce high-quality products. An empathetic approach to understand the issues faced by customers and providing timely and cost-effective piping solutions help us to develop a dependable and comfortable relationship with the customers and provide a wide variety of products.

We consider integrity as our core strength. We are honest in our work and hope to retain this honesty in the years to come. It's our integrity that inspires us to produce the best products and establishing a mutual beneficial relationship with the stakeholders.

We, therefore, seeks continued patronage of our valued customers, cooperation of our employees, and thanks to all our well-wishers who have contributed to the growth of Shelter Industries Pvt. Ltd.

## **Mission:-**

Striving towards a continuous improvement plan and organizational for establishing our company as a pioneer supplier of high quality plastic products, serving both domestic and international markets alike.

## **Vision:-**

To be a leader in plastic processing industries while providing quality, technology & continuous development to our customers and the market whilst catering to our stakeholders at all times.

## **Our Values:-**

**Achieving our mission, we are lead by Our Values:**

- Customer commitment
- Quality
- Integrity
- Efficiency
- Continuous development

A Complete Building Solution
